

# WET GROUND

## What Do We Do Now?

In light of today's challenging weather, your local SWCD and NRCS offices are offering the following two meetings to producers in the WLEB to assist them with decisions that have to be made. Please join us and help spread the word!

Refreshments will be provided.

### Alfalfa & Forages

#### Topics:

- Did this spring's cold and wet weather kill my alfalfa?
- What are the options with my forage needs?
- How do I rotate my alfalfa stand?
- What are the impacts of cover crops and my crop insurance coverage?

#### Information Provided By:

- Mike Poling, Poling Farm Service
- Dr. Keith Johnson, Purdue University, Department of Agronomy
- Greg Kneubuhler, G&K Concepts
- Tim Bomba, Natural Resources Conservation Services
- Mike Werling, Allen Co. Soil and Water Conservation District

Location: Max Delagrange, Inc.  
17412 Darling Rd  
Woodburn, IN 46797

### Corn & Soybeans

#### Topics:

- How do I manage today's challenging weeds?
- What are my options with mature cover crops?
- Is "planting green" an option I should consider?
- Should I consider seeding cover crops on my prevent plant acres?
- What are the impacts of cover crops on my crop insurance coverage?
- Can I harvest or bale my standing cover crops?

#### Information Provided By:

- Dr. Keith Johnson, Purdue University, Department of Agronomy
- Jesse Gerding, Farmers Mutual Hail Insurance
- Greg Kneubuhler, G & K Concepts
- Dave Lamore, Bayer Crop Science
- Tim Bomba, Natural Resources Conservation Services
- Mike Werling, Allen Co. Soil and Water Conservation District
