

Remlinger 8 row Strip-Till unit

Rate: \$8/acre

The Remlinger strip till unit allows for minimum tillage, combining the soil drying and warming benefits of conventional tillage with the soil-protecting advantages of no-till by disturbing only the portion of the soil that is to contain the seed row

Phillips Harrow

Rate: \$6/acre

The Phillips Harrow units can be used in early spring to lift and fluff crop residue to provide aeration which helps the soil warm and dry earlier. The rental rate for the Phillips Harrows is \$6.00 per acre for the first 200 acres, with a discounted rate of \$4.50 per acre for 201+ acres.

A \$1/acre discount is applied to all invoices paid within 10 days!

2022 Equipment Rental

District Tractor
Rate: \$60/tach hour

Allen County
Soil & Water
Conservation District

9602 Coldwater Rd. Suite 104
Fort Wayne, IN 46825
(260) 484-5848 ext. 3 www.allenswcd.org

Cover Crop Interseeder

Rate: \$6/acre +
\$55/tach hour on
tractor

Salford 522 Air Seeder

Rate: \$16/acre

(includes unit, tractor, and operator)

Interested applying nutrients while seeding your soybeans or other spring planted crops? If you are interested in getting your fertilizer application incorporated into the soil with minimal disturbance, the Salford 522 Air Seeder is the tool for you.

Essentially a no-till drill, the cover crop interseeder plants a cover crop into standing corn at V5 to V7 stage, creating a more updated and effective version of the traditional technique of broadcasting cover crop.

Great Plains Turbo Max w/Valmar Seeder

Rate: \$11/acre,
\$16/acre w/Valmar
seeder & tractor

Are you looking for an opportunity to try vertical tillage this spring? Whether your reason is to try to warm up and dry out soils, incorporate fertilizer, or improve your seedbed, the District's Great Plains Turbo Max should suit your needs.

A \$1/acre discount is applied to all invoices paid within 10 days!
